	POLICY	EGIS-QTY-POL-001
QUALITY POLICY		
CONTROLLER: ESQ MANAGER	OWNER: EGIS-100% ENTITIES IN AUSTRALIA	

EGIS' Objectives drive EGIS to be the preferred provider of operational, maintenance and asset management services to meet the requirements of the infrastructure owners utilising internal capabilities and proven deliverables to become a reliable partner of choice.

These enable EGIS to provide operations and maintenance services and traffic management solutions to road, tollway and tunnel infrastructure owners and to be dedicated to contribute significantly to its success by:

- Developing, implementing and maintaining the EGIS Integrated Management System, EGIS IMS, based on the internationally recognised ISO 9001 standard,
- Conforming to ISO 9001 standard and contractual agreement at all times to satisfy our client's requirement;
- Ensuring established and maintained operational procedures comply with relevant quality standards and other requirements to which the Company subscribes;
- Liaising with all relevant stakeholder including regulatory authorities, the community and industry associations to ensure views regarding its operations are taken into account;
- Promoting awareness of this Quality Policy amongst employees, relevant sub-contractors and client;
- Developing and maintaining a monitoring program to assess operational performance against specified objectives;
- Establishing a program which seeks to continually improve the performance and management of the Company's operations; and
- Reviewing the quality system to ensure adequacy, accuracy and improve existing systems on an annual basis.

Ownership, responsibility and accountability for Quality rest with Management and employees of EGIS. Quality and customer satisfaction can only be achieved with the total involvement, commitment and good work ethics of all employees.

Our success in effectively implementing this quality policy will be measured by positive endorsement by our client.

Michael Stephens

Director
